Projects

iHealth

(09/2023 - Present)

Name	iHealth
Descriptions	Website for health
Number of members	5
Position	Web developer (CMS, Backend)
Responsibilities	<ul style="list-style-type: none"> - Develop feature (salient features: statistic(infomation, chart, ...); realtime notification with socket (save and send notification for user); permission user) - Responsive - Write apis for web, app
Technology in use	<ul style="list-style-type: none"> - Frontend: ReactJS (CMS), Flutter (App user) - Backend: NestJS, Websocket, Mongoddb, MariaDB, Redis - Library: Antd, scss, socket, apexchart, react-query

Spa

(07/2023 - 10/2023)

Name	Spa
Descriptions	Website for spa
Number of members	3
Position	Fullstack developer
Responsibilities	<ul style="list-style-type: none"> - Develop feature (salient features: manager trainer (review, resource, infomation); booking by admin, trainer (time-line booking, create, update booking, bill, ...)) - Write apis
Technology in use	<ul style="list-style-type: none"> - Frontend: ReactJs - Backend: Nestjs, MariaDB - Library: Antd, scss, react-query

Baychat

(03/2023 - 10/2023)

Name	Baychat
Descriptions	Website linked to third parties for chatting, manager, ...
Number of members	4
Position	FrontEnd developer
Responsibilities	<ul style="list-style-type: none"> - Develop feature (salient features: realtime chat, task, trouble, ...; manager trouble) - Responsive
Technology in use	<ul style="list-style-type: none"> - Frontend: ReactJs (CMS, user) - Backend: NestJs, MariaDB, Websocket - Library: Antd, scss, socket

GoodLife

(06/2022 - 01/2023)

Name	GoodLife
Descriptions	Website to advertise flyers
Number of members	4
Position	Fullstack developer
Responsibilities	<ul style="list-style-type: none">• Develop feature on CMS, user• Responsive• Write apis
Technology in use	<ul style="list-style-type: none">• Frontend: ReactJs (CMS), NextJs (User)• Backend: Nestjs, MariaDB• Library: Antd, scss, redux

Creseniii

(04/2022 - 07/2022)

Name	Creseniii
Descriptions	Website is same as Trello
Number of members	3
Position	FrontEnd developer
Responsibilities	<ul style="list-style-type: none">• Develop feature (salient features: task manager; drag and drop task with order and status; profile, KPIs)• Responsive
Technology in use	<ul style="list-style-type: none">• Frontend: ReactJs• Backend: Nestjs, MariaDB• Library: Antd, scss, redux

Education

2018 - 2022

Ho Chi Minh City University of Foreign Languages and Information Technology (HUFLIT)

Major - SOFTWARE ENGINEERING

Level - Good (GPA: 7.6/10)
